STUDIO GUIDE | 2022/23

HELLO, THERE. IT'S LOVELY *to*
MEET YOU.

I'm Jemma, and I'm so pleased to have you here.

I have over a decade of experience in the Wedding and Events industry, and have always had a knack for finding clarity in a design brief and transforming a creative vision into a physical experience. I'm based in the village of Stanion, Northamptonshire, and I'm currently knee-deep in my own home renovation. My previous home was featured in 25 Beautiful Homes Magazine, and I've created commissioned designs that have been displayed in all of the Selfridges and House of Fraser stores across the UK. I also work as a prop stylist for product-based businesses, and create impressive floral displays for corporate clients for a multitude of different occasions.

I'm incredibly proud of my ability to make the very best of a space. Maximising its impact and beauty on any budget — whether it be a wedding, an intimate gathering or a room in your home. My love of sourcing soul-lifting items, cancelling out the noise and focusing on impactful, practical design all come into play. I am on a journey to help as many people as I can to take control, and guide them to successfully style with confidence.

You have a vision but you don't know where to start. You want your next project to look beautiful, but you just don't have the time or experience. Let me help, and together we will create a space to be truly proud of.

CREATIVITY IS CONTAGIOUS — *pass it on.*

THE SMALL PRINT

Each project is bespoke, and will therefore be quoted on an individual basis, once the client has outlined their exact service requirements.

Any site visits will incur a travel expense charge of 45p per mile or a potential rail/taxi fare.

Additional phone consultations, other than those included in the package, will incur a £25 charge payable prior to the call. A second site visit or regular communication from the start to end of a project will be quoted on request.

The client agrees that by using the service they are under no obligation to follow through with the suggestions or designs presented to them. They are aware that it is a one-off design process, and the fee does not include multiple amendments or adjustments. If, however, the client feels that the brief has been in no way met, a discussion is welcomed.

Additional services such as styling, procurement, or liaising with suppliers are all chargeable and will be quoted and agreed on prior to undergoing the work.

This is a non-refundable service, as all aspects of the offering will be entirely met. However, should you be completely unsatisfied, always get in touch to see if we can find a resolution.

The proposed designs and moodboards presented will be of my own time and work, and therefore these should not be shared as your own creation. Any sharing of these ideas on social media, for example, must be completely transparent and highlight where they have come from.

I can share any inspiration boards on social media or website platforms. Privacy will always be taken into account, and you will never be attached to the image unless requested or happy to.

It is important that the client's expectations are in line with their budget for the entire project in order for both parties to benefit from the whole process and to avoid disappointment when receiving your final ideas.

All packages are payable 7 days prior to the project starting.
